

## Release Scenarios for LSST Data

William O'Mullane, Phil Marchall, Leanne Guy

2018-12-18

# 1 Introduction

This is in the file intro.tex. Put your text here.

The appendices for the Appendix A and Appendix B are defined in the main file LDM-000.tex.

The main bibliography file is in the lsst-texmf/texmf/bibtex/bib so you can refer to documents such as LDM-294 (from lsst.bib) or papers like [1] (from refs\_ads.bib). You may make a PR to add new refs to these files.

Acronyms like BOE and BAC will be picked up by generateAcronyms.py which is in lsst-texmf/bin – that needs to be in the PATH.

## A References

### References
